PAGE 1 — OUR SOLUTION

INTELLIGENT HOME AUTOMATION FOR MODERN LIVING

Octonics Innovations provides professional smart home automation solutions designed to transform villas, apartments, and private residences into intelligent, comfortable, secure, and energy-efficient living spaces.

Our home automation solutions allow homeowners to control lighting, curtains, air conditioning, scenes, security, entertainment, and other connected systems from elegant wall keypads, touch panels, mobile applications, and centralized control interfaces.

We design every automation system based on the lifestyle, room usage, interior design, and comfort expectations of the client. The objective is not only to automate devices, but to create a smooth living experience where technology works naturally in the background.

Our smart home systems are built using professional-grade automation technologies such as **KNX, DALI, RTI, CoolMaster**, and other reliable integration platforms depending on the project requirements.

From a single room to a complete luxury villa, Octonics Innovations delivers automation systems that are stable, expandable, elegant, and easy to use.

KNX | DALI | RTI | CoolMaster | IP Integration | Mobile App

COMFORT
Control lighting, curtains, AC, and scenes from one simple interface.

LUXURY EXPERIENCE
Create elegant moods for welcome, dining, relaxing, cinema, sleep, and away modes.

CENTRALIZED CONTROL
Manage the entire home through wall keypads, touch panels, mobile apps, and remote access.

ENERGY EFFICIENCY
Reduce unnecessary lighting and cooling usage through schedules, sensors, and smart logic.

SECURITY INTEGRATION
Connect selected security, access, CCTV, and alert systems into the smart home experience.

FUTURE READY
The system can be expanded later with additional rooms, devices, sensors, scenes, and integrations.

PAGE 2 — PROPOSED SCOPE

PROPOSED HOME AUTOMATION SCOPE

The proposed smart home automation solution can include the following systems based on the selected project scope and approved quotation items.

1 LIGHTING AUTOMATION

Control individual lights, lighting groups, dimming circuits, decorative lighting, outdoor lighting, and complete room scenes from wall keypads, touch panels, and mobile applications.

- ON/OFF control
- Dimming control
- Room-wise control
- Scene-based lighting
- Motion-based automation
- Outdoor & landscape lighting
- Schedule-based operation
- Centralized all-off control

2 CURTAIN & BLIND AUTOMATION

Motorized curtains and blinds integrated into the automation system for smooth control from keypads, apps, schedules, and lifestyle scenes.

- Open / Close / Stop control
- Sheer curtain control
- Blackout curtain control
- Scene-based operation
- Sunrise & sunset scheduling
- Group control

3 SMART KEYPADS & TOUCH PANELS

Elegant wall-mounted keypads and touch panels provide a premium control experience. Each button can be programmed for lights, curtains, AC, scenes, and other functions.

- Multi-button programmable keypads
- Custom button functions
- Scene activation
- Status feedback
- Premium finish options
- Touch panel dashboard

4 HVAC & AC CONTROL

Air conditioning control provides comfortable and efficient climate management across rooms and zones with full integration into the smart home system.

- AC ON/OFF control
- Temperature adjustment
- Mode selection
- Fan speed control
- Zone-wise control
- Schedule-based operation
- Away mode energy saving

5 VISUALIZATION & MOBILE CONTROL

A customized user interface for mobile, tablet, or wall-mounted control screens allowing easy operation of the full home automation system.

- Room-wise control interface
- Lighting dashboard
- Curtain dashboard
- AC control page
- Scene control
- Remote access
- User-friendly design

📦 DELIVERABLES

- Automation system design
- Device selection and BOQ support
- KNX / DALI / RTI / integration programming
- Lighting and curtain control configuration
- Scene programming
- Touch panel or app interface configuration
- Testing and commissioning
- Basic user training
- System handover documentation

QUOTATION ITEMS

Commercial Quotation

#	ITEM / PRODUCT	DESCRIPTION	BRAND	QTY	UNIT PRICE	TOTAL
Basement						
01	PS 640 mA T KNX	KNX power supply, 640 mA output	theben	1 pcs	87.293	**87.293**

SMART HOME AUTOMATION PROPOSAL
Confidential Document

PAGE 4 — TERMS & ACCEPTANCE

⭐ WHY OCTONICS INNOVATIONS

Octonics Innovations is a Kuwait-based technology solutions company delivering smart automation, software development, IT infrastructure, surveillance, access control, data solutions, and intelligent business systems.

- ✓ Kuwait-based technology solution provider
- ✓ KNX certified system integration expertise
- ✓ ISO certified company
- ✓ Experience in automation, software, and IT infrastructure
- ✓ Professional design and documentation
- ✓ Modern technology approach
- ✓ Scalable and future-ready solutions
- ✓ Local support and implementation capability

📋 GENERAL NOTES

- The final scope will be based on the approved quotation items.
- Any additional work outside the approved scope will be quoted separately.
- Product availability is subject to supplier stock at the time of order confirmation.
- Civil work, electrical work, false ceiling, furniture, and third-party work are excluded unless clearly mentioned.
- Timeline will be confirmed after final approval, advance payment, and availability of all required site information.
- Warranty and support terms will be applicable as mentioned in the final quotation.

PAYMENT TERMS

50% advance upon order confirmation. 40% upon equipment delivery. 10% upon commissioning.

VALIDITY

This proposal is valid for 30 days from the date of issue.

DELIVERY TIMELINE

To be confirmed upon order acceptance and advance payment.

TERMS & CONDITIONS

Standard Hardware Terms The Contractor shall provide all necessary labor, materials, tools, and equipment to complete the Integration as described in this proposal.

Standard Hardware Terms A 50% advance payment is required upon acceptance. 40% upon delivery of equipment. 10% upon successful testing and commissioning.

Standard Hardware Terms All hardware is covered by a 2-year manufacturer warranty. The Contractor provides a 1-year workmanship warranty from the date of commissioning.

✍ SIGNATURE & ACCEPTANCE

By signing below, the customer acknowledges and accepts the full scope, commercial offer, and terms outlined in this proposal.
